

## A 1970s bungalow transformation

**BLACK MILLWORK** was specified to supply windows and doors when a 1970s bungalow in Derby was transformed into an eight bedroom home.

"It was imperative the windows and doors were of the highest specification, reflecting the quality and elegant character of the property and complementing its surroundings," comments Gary Lodge, at Bellbrooke Developments.

Black Millwork custom-made six large frames to form a triangular shape designed to give a unique stamp. Approximately 30 Andersen 400 series Woodwright Sliding Sash windows were specified for the build, as well as a selection of Andersen 400 Series Casement Windows, Andersen 400 Series French Doors, Andersen Flexiframe, Black Millwork Folding Sliding Door Aluminium finish and Fixed Casement windows.
