

#### ④ **BLACK MILLWORK**

When a 1970s bungalow in Derby was bought in order to transform it into a magnificent eight bedroom home, careful attention to detail and finishes was essential. Black Millwork was the only window and door supplier that could provide over 50 windows and doors, as well as exceptional bespoke feature windows for the front and back of the property, on time and of a high enough quality finish. Random House overlooks the picturesque Derbyshire countryside, and Black Millwork was specified to ensure the property seamlessly blended in with neighbouring, traditional fronted buildings.
